

“Wireless implementation in public, government and education establishments”

About today's speakers

David Wilde

Currently CIO for Westminster City Council, David is driving forward an exciting new ICT strategy based on the principles of customer centric service delivery, an infrastructure free technology environment and transformational change.

David was previously CIO at the London Borough of Waltham Forest, with responsibility for the Council's customer access to services, transforming service delivery, all ICT and the Project and Programme management profession.

Prior to that David was Head of e-Business and Head of Internal and Electronic Communications for the Office of the Deputy Prime Minister (ODPM), where he was responsible for development and delivery the ICT strategy and service management, e-government and internal and electronic communications strategies and operations. He also ran Internet service development and delivery for the Central Computer and Telecommunications Agency (CCTA) and worked on Schools capital policy in the Department for Education and Employment, including the New Deal for Schools programme.

Lisa Davidson & Bernard Wolff

Lisa joined Toshiba in 1996 working in both the training and technical support areas. Lisa also now predominantly supports the Public and Education Sector.

Bernard joined Toshiba in 2003 as part of the technical support team and provides support to the Public and Education Sector.

Alex Clouter

Alex has been in the business of 'packet pushing' since leaving university, additionally he is a strong advocate of open source software and his daily weapons of choosing when in combat is Perl and Linux.

Keen as ever to assist others with their problems, he submits fixes for software, Dishes out advice and anything else Joe Public is willing to accept from him to make their lives easier. JANET have also made him part of their roaming service's (JRS) support team aiding those who run into deployment issues with their new wired/wireless 802.1X equipment.

Roger Hockaday

Roger Hockaday is the director of marketing for Aruba Networks, EMEA. Prior to Aruba Roger held similar positions with Infoblox and Packeteer, and was a director of Congress Communications Europe Ltd, a market acceleration company that introduced US high-tech start-ups into Europe. Roger was also formerly the vice-president of strategic marketing for Alcatel's voice and data division in Paris, having joined Alcatel through its acquisition of Xylan.
